Teacher Idea Submission Form

Teacher Name: _____
Teacher School: _____
Phone (School): _____
Phone (Alternate): _____

Teacher County: _____
School Address: _____
Teacher Email: _____

Teachers, as users of our thematic learning units, your experiences are valuable to us. Please use this form for submission of ideas that you think may also be of interest to our program, and which may ultimately benefit your school, and other school systems affiliated with our program. If you need additional space, or wish to make comments regarding our program that are not directly addressed in the questions below, please feel free to add comments or suggestions on the back of this form, or email them to Dr. Susan Riechert at rieichert@utk.edu. Thanks!

- 1. Do you have any ideas or suggestions for new exercises in our existing thematic learning units?**
- 2. Do you have any ideas for different uses of the materials currently supplied in our existing units?**
- 3. Do you feel that some units need any additional specimens or materials added for further enrichment? If so, why?**
- 4. Do you have any suggestions for improvement of particular exercises, particularly with regard to the grade level or subject which you teach? Please explain, and elaborate on how such might be helpful.**
- 5. Do you have any ideas for new thematic units that may also be beneficial to add to our program? Give a few ideas on types of exercises, what grade levels/subjects could benefit from such a unit, etc.**
